"Hello there! Welcome to the first Animaniacs™ Game Boy® game. My name is Dr. Scratchansniff, and I'll be conducting this tour through the playing instructions for the game. I will be assisted by my nurse..."

HELLOooo NURSE!!!

Boys...sheesh!

"Let's begin by going back through time..."

Yakko, Wakko and Dot—the Warner siblings—were created by some wacky Warner Bros. animators in the 1940's. Right from the beginning they were labeled 'explosive' and 'dangerous', and were shut up in a water tower on the studio lot. They finally managed to escape in 1993, and began amusing themselves by wreaking havoc upon film sets across the lot. Then one day they found something even more entertaining to do. They decided to start collecting various items used in movies from the Warner Bros. Studio..."

Playing on the "Super Game Boy®" Accessory

Insert the Game Boy Game Pak into the Super Game Boy. Next, insert the Super Game Boy into the Super NES and move the power switch on the Super NES to the ON position. For further information, consult your Super Game Boy and/or Super NES instruction manual.

Quiet Pinky! I don't want anyone annoying me with questions about the Super Game Boy. It would interfere with my plans to take over the world!

"Let me introduce you to the Animaniacs"

"YAKKO is the leader of the Warner siblings. He's smart, shrewd, a fast-talker, and a born leader."

"WAKKO is the younger brother. Not as talkative as Yakko, he can nevertheless really pack a punch when he starts swinging his mallet. He is an incredible glutton who will eat just about anything!"

"DOT is the cute little sister of Yakko and Wakko. She's a tomboy who mimics her big brothers in everything they do, but when it comes to the crunch she'll use her feminine wiles as a weapon."

Playing the game

"The game is intended for one player. You must use the special skills of

Yakko, Wakko, and Dot to advance through the game. You control one character at a time. Depending on the trap you are facing, you may want to switch personalities by pressing the SELECT button. *(Hmmm...multiple personalities. Very interesting.)*

"Here is a list which my nurse has prepared. It explains more details of the game:"

SELECT screen

1. After the initial practice stage, choose one of three game stages at the Select screen. Each stage is divided into several areas. Collect the item in the final area of a stage to clear it. When you clear all three stages, there is a final stage you have to clear. (Note: In EASY mode there is no final stage.)

2. If your character is injured, you will lose one or two hearts. If you don't clear a stage within the time limit, you will lose a life. If you still have lives remaining, the game will continue from the start of the area where you lost your life. If you are out of lives, the Game Over screen will appear.

3. Choose YES at the Game Over screen to continue playing from the start of the stage where you were last at. (You can use Continue three times.) Choose NO to end the game.

4. You can replay a stage after you've cleared it, if you want to. You can exit a previously cleared stage at any time by pausing the game and pressing the Select button.

Starting the game

Press the Control Pad or the Select button at the Title screen to select an item from the menu, then press the Start button to lock it in.

- Hard: One life. If you clear all the stages at this level, you'll be able to watch the special ending.

Sound: Choose from STEREO or MONO sound.

Song Test: Lets you listen to the music. Choose a number with the control pad, then press the A button to listen to it. Dr. Scratchansniff recommends music to many of his patients to help them to relax.

Press the Start button to return to the Title screen.
